Objective

Looking to obtain a position as a software engineer, in a Front-End Engineering role where I am able to create platforms and interfaces to ease the use of websites, applications, and overall UI to a wide variety of individuals. I am able to use my strong team working skills, clear communication, and detail driven mind to create sharp and precise webpages with optimal design and supreme performance

Education

Georgia Southern University, Statesboro, GA
- Bachelor of Science in Computer Engineering – Graduate December 2020

Skills

Computer Programming Languages: C, C++, Java, Python, C#
Web Application Tools: JavaScript, HTML, CSS, SCSS, React, GatsbyJS
Database Skills: MySQL
Platforms: Windows, Mac

Projects (all projects located on my GitHub)

Senior Project
- Used Python coding language and PyTorch packages in tandem to test and train ResNet, GoogleNet, and AlexNet to find which would be a better fit to run the JetRacer AI autonomously with the greatest accuracy.

Create a mirror database to the Georgia Southern class search system
- The search system is located here: https://my.georgiasouthern.edu/courses
- Used MySQL and the SQL programming language to create a database that encompassed all of the Computer Science and allowing the user to search and add classes to their schedule in one simple application.
- The user interface was created using python

Game Jam 1&2
- Participated in a Game Jam through the school where we were tasked to create a FPS game using the unity software and the C# programming language

Professional Experience

Walmart IDC 6061, Package Handler – 2018 to 2019
- Controlled package flow by unloading trucks and transferring products to other portions of the warehouse

- Used a system to log everything coming in and out of the truck meticulously with high levels of accuracy
- Used a forklift to move around larger items and used a narrow reach lift

Lowes Statesboro, Floor Associate/Back-End Associate – 2019 to 2020
- Controlled the back end of the store with unloading and logging most of the equipment coming in and out of the warehouse on trucks
- Operated a forklift and a narrow reach lift within the store including higher priced items
- Worked as a floor associate and helped with greeting and assisting customers

Smoothie King, Shift Leader – 2020 to 2020
- Provided customer service through the drive thru and in person to provide excellent customer service and satisfaction
- Worked as a shift leader where I led team members and carried out manager functions

Extracurriculars
Southern Pride Marching Band Drumline Section Leader – 2015 to 2018
- Was a 3 year member and 2 year section leader of the Southern Pride drumline and received various top section awards and received several individual awards as a leader and as a member while leading the group to learn 7 to 8 shows per fall season
